

Bird Surveys of San Joaquin River Restoration Areas

Why Survey?

- To follow the effects on birds of native plant restoration along the San Joaquin River Parkway
- Data can be used to monitor the restoration and development of the river bottom area
- To engage members in citizen science

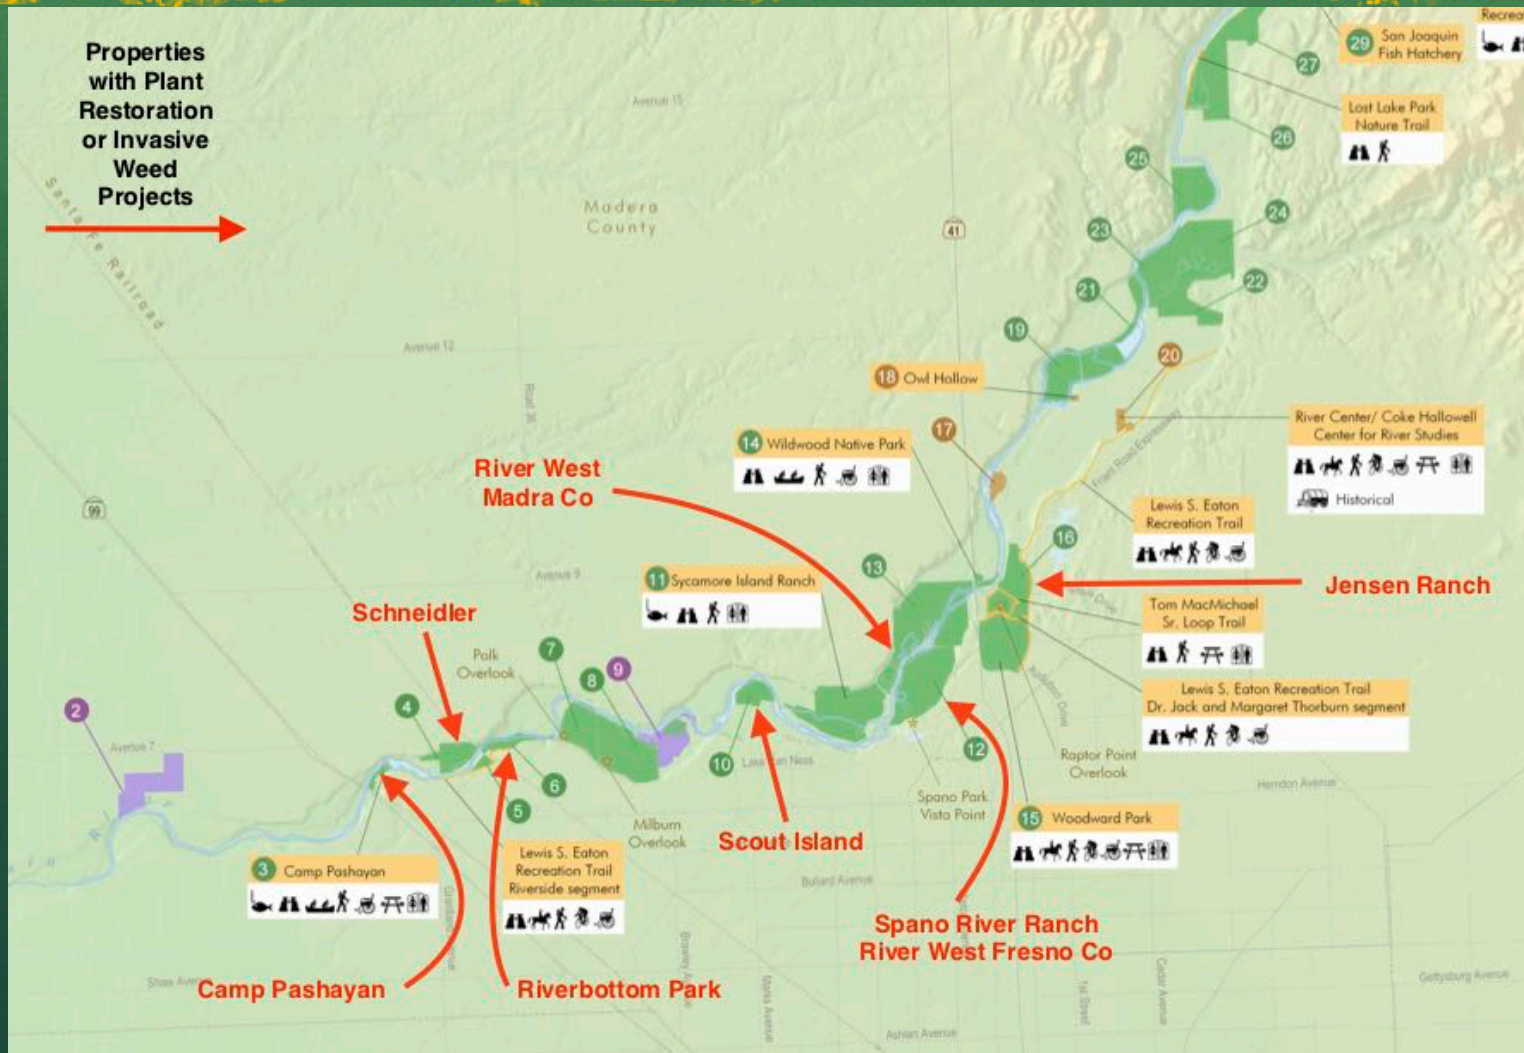

The Team

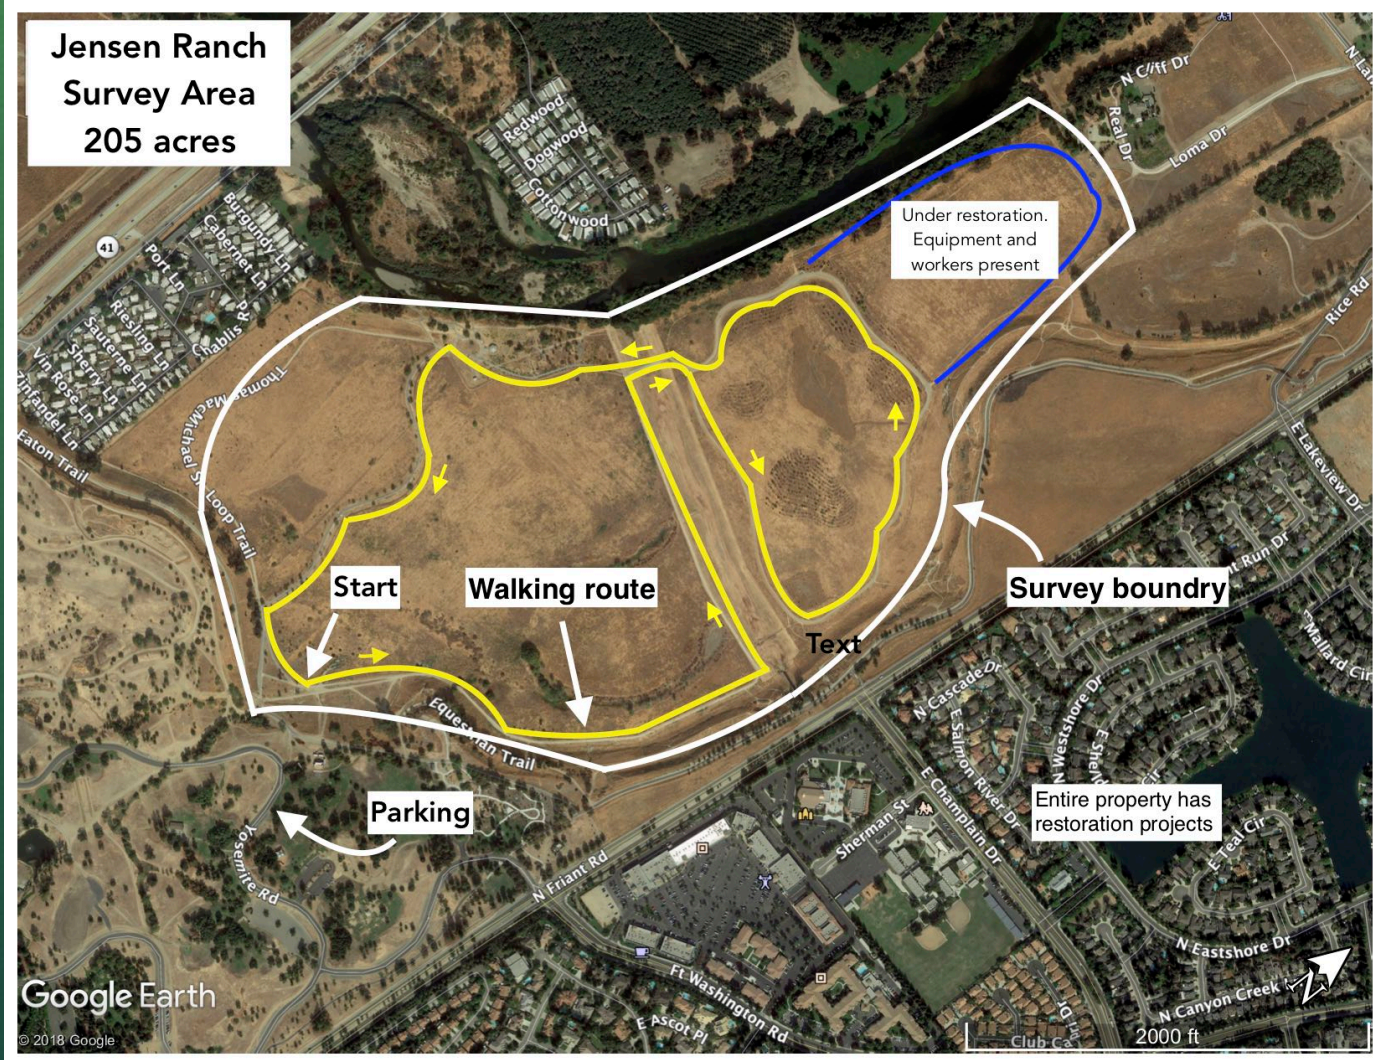

- FAS has teamed with the San Joaquin River Parkway and Conservation Trust and the San Joaquin River Conservancy
- We will survey native plant restoration areas
- We will offer Introduction to Birding classes at River Center
- We have a signed agreement with the San Joaquin River Conservancy allowing us access

San Joaquin River Restoration Areas

Jensen River Ranch

River West Open Space Area

Survey Protocol

- One to four participants per survey
- Begin survey within 1 hour of sunrise, complete within 4 hours of sunrise
- All observe but only one person enters counts into eBird
- Can share final checklist with other participants
- Use existing hotspot (Jensen River Ranch or River West Open Space Area)
- Survey at least once per month, but as often as you like

Using eBird

- eBird Mobile is a free app for iOS or Android
- Link app to your account
- Counts may be collected manually or with other apps and entered into eBird later on a computer
- Share final checklist with fassjrsurvey@fresnoaudubon.org so we can accumulate all the project checklists for analysis
