

Fresno Audubon Society Field Trip Guidelines during COVID-19  
DRAFT 28 JULY 2020

1. Participants must follow all local, state and federal edicts regarding COVID-19 that are in place at the time of the trip.
2. Participants must pre-register using the FAS event registration system
3. Participants must self-screen their own temperature before the outing. If temperature is greater than 100.4 °F (CDC definition of fever) they must not attend.
4. Liability waiver and certification of self-screening will be part of registration process
5. Social distancing of 6 feet must be observed by all participants not in a family group or exclusive social bubble
6. All participants must wear a mask.
7. All participants should carry a bottle of hand sanitizer and use it if they contact a potentially contaminated surface.
8. Destinations must allow for social distancing. Areas such as parks or Wastewater Treatment Plant are ideal. Bird sits are encouraged.
9. Any shared optics must be sterilized between uses with alcohol wipes.
10. Participants will meet at the location of the event. Central meet-up points for carpooling will be eliminated for now.
